warm up to cool color

Bid adieu to the traditional weave! Pat Drake, master colorist and Director of Education for ENJOY Hair Care, says the conventional weave is making its exit while more tone on tone colors (like red on red) will debut this season. The delicate contrast complements the softness of current hairstyles.

• **Beachy Waves** – "It's like beach hair without even stepping foot on a beach!" says Maggiore. "Work with the natural texture of your hair and use plenty of moisturizer to emphasize the waviness."

• **Modern Bobs** – "This updated version of the classic bob includes variations in the length of layers, making it easy to style and flattering. It's a high fashion look that's low-maintenance."

• **Messy Side Braids** – "The slightly messy side braid has emerged as the most fun, flirty and versatile style. Many celebrities have recently
